Experience

Coinbase - Product Designer

Jun 2025 - Present

Partnered with product managers and engineers to scale the institutional USDC experience, including growth, enrollment, and the Earn Center surfaces. Launched 5 new products across Coinbase Prime and Exchange, growing the assets on platform to $10 billion (~150% growth over 3 quarters).

Designed foundational Coinbase Prime flows for activities, transfers, and reporting capabilities, raising quality and consistency across the product.

Led 5 interviews with account managers, product managers, and external clients, resulting in improved usability of Coinbase Prime's security features.

Drove the product-demo narrative for Coinbase Institutional's New Prime Showcase, designing key surfaces and event materials presented to Coinbase's top 150 clients.

Coinbase - Product Design Intern

May 2024 - Aug 2024

Iterated on end-to-end features to schedule and manage reports, leading to increased efficiency, accuracy, and punctuality of report generation for top-priority clients.

Redesigned all reporting flows to consolidate component patterns, increasing engineering efficiency and scalability of future reporting functionalities in Coinbase Prime.

Fidelity Investments - UX Design Intern

Jun 2023 - Aug 2023

Designed end-to-end prototypes for gamified savings programs that automate funding, enabling more consistent savings for over 1.3 million 529 account holders.

IBM - Design Apprentice

Jun 2023 - Aug 2023

Completed an 8-week design apprenticeship in equitable design and inclusive research methods and presented the work to IBM designers.
